Market Report

Thursday, Sept. 8, 2016

Well, the market continues to roll south. Packers have cattle bought and backed up for 2 to 3 weeks or around October 1. Fats in Eastern Iowa a week ago Monday were 112, today 102 to 106. Formulated or committed fats 2 to 4 months out are making up to 80-90% of our supply, thus no open competitive market. We sold just short of 4000 with many buyers here and an active trade all day. Yet, priced differential on some comparative sales seem wide. The lower futures trade leaves for much uncertainty.
