Market Report

Thursday, February 24, 2022

Considering the last four days, having not postponed, turned out to be okay. High winds, extreme cold, wavering decision, it's not easy to call the right shots. If you sold a steer, good idea, market was higher. With Russia on the doorstep of Ukraine, invading a defenseless country, the markets vacillate \$5 to 10/cwt each way. Light heifers were extremely good, breedable heifers could have been better.
